

BIRDS QUEENSLAND 2009 TWITCH. 24-25 October

INFORMATION FOR SPONSORS

- This is a major fundraising event to support avian research in Queensland.
 - All proceeds go to support avian research within Queensland.
- Birds Queensland encourages everyone, member or non-member to take part.

MANY BIRDS AND THEIR HABITATS ARE THREATENED
BY HUMAN ACTIVITIES.

The threats to Queensland's birds are many, including climate change and an increase in the state's human population with consequent reduction of native habitats. It is vital that research is carried out to help us understand the consequences of these events and to instigate actions which will help birds survive them.
